For the quarter ended 30 June 2025, the Group reported revenue of RM62.13 million, representing a decline of RM9.18 million, or 12.88%, compared to RM71.31 million recorded in the corresponding quarter of the previous financial year. The decrease was primarily attributable to lower sales contributions from the Other Industrial Hardware and Aluminium Engineering Works segments.

The Group reported a profit before tax of RM1.97 million for the quarter ended 30 June 2025, compared to RM2.49 million in the corresponding quarter of the previous financial year. The decline in profit was primarily attributable to lower sales from the Aluminium Engineering Works segment. Meanwhile, the Stainless Steel and Metal-Related Products segment recorded an improvement in profit margin during the current quarter.

Stainless Steel and Metal-Related Products Segment:

The Stainless Steel and Metal-Related Products segment recorded revenue of RM30.12 million for the quarter ended 30 June 2025, representing a decrease of RM4.47 million or 12.92% compared to RM34.59 million in the corresponding quarter of the previous financial year. Despite the lower sales, the segment's gross profit improved from RM5.11 million to RM5.76 million. This improvement was primarily driven by the segment's focus on value added products with better margins during the quarter.

Marine Hardware and Consumable Segment:

The Marine Hardware and Consumables segment recorded revenue of RM5.61 million and gross profit of RM1.27 million for the quarter ended 30 June 2025. Both revenue and gross profit registered a slight decline compared to the corresponding quarter of the previous financial year, reflecting softened market demand in this segment.

Other Industrial Hardware Segment:

The segment reported revenue of RM5.40 million for the quarter ended 30 June 2025, representing a decline of RM1.30 million or 19.44% compared to RM6.70 million in the corresponding quarter of the previous financial year. Gross profit also declined accordingly, from RM1.89 million to RM1.18 million. The decrease was primarily attributable to lower sales during the quarter.

Engineering Works Segment (i):

Glove dipping lines
The Engineering Works segment recorded revenue of RM1.52 million and gross profit of RM0.32 million for the quarter ended 30 June 2025, compared to revenue of RM0.08 million and a gross loss of RM0.05 million in the corresponding quarter of the previous financial year. The improvement was primarily due to the disposal of one unit of glove production line during the current quarter.

Unaudited Report on Consolidated Results for the 6 months ended 30 June 2025 (Cont'd)

Additional Information Required by the Listing Requirements of Bursa Malaysia Securities Berhad (Cont'd)

Part B: Explanatory Notes Pursuant to Paragraph 9.22 and Appendix 9B of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (Cont'd)

B1. Review of performance (Cont'd)

Engineering Works Segment (ii):

Aluminium

The Engineering Works segment reported revenue of RM19.74 million for the quarter ended 30 June 2025, a decrease of RM4.32 million or 17.96% compared to RM24.06 million in the corresponding quarter of the previous financial year. Gross profit declined by RM0.32 million, from RM3.13 million to RM2.81 million. The lower revenue and gross profit were mainly attributable to a slowdown in project progress, impacted by the overall market slowdown during the current quarter.

B2. Comparison with immediate preceding quarter's results

	Current Quarter	Immediate Preceding Quarter	Changes
	30/06/2025 RM'000	31/03/2025 RM'000	(%)
Revenue	**62,128**	62,735	(1.0)
Operating Profit	**3,599**	3,520	2.2
Profit Before Interest and Tax	**3,827**	3,711	3.1
Profit Before Tax	**1,973**	1,578	25.0
Profit After Tax	**1,272**	1,065	19.4
Profit Attributable to owners of the Company	**1,234**	1,046	18.0

Revenue for the current quarter declined by RM0.61 million or 0.97% compared to the preceding quarter. However, profit before tax increased from RM1.58 million to RM1.97 million, primarily attributable to the gain arising from the disposal of the glove production line. Notwithstanding this improvement, market sentiment remains subdued, as ongoing uncertainty surrounding tariffs has contributed to a softening in customer demand.

B3. Commentary on prospects

The Group remains committed to expanding its customer base by entering new geographical markets and developing a broader range of products and services, with a particular focus on the aluminium fabrication business. This strategic move enables the Group to tap into new market segments and customer base, positioning itself as a comprehensive one-stop solutions provider for the construction, manufacturing, and other related industries.

To support this expansion, the Group will actively tender for new projects, including stainless steel water piping and plumbing solutions, as well as aluminium project works. By targeting a diverse range of projects across multiple industries and applications, the Group aims to reduce dependency risks and enhance its long-term growth and resilience.

The Group has commenced the installation of new aluminium extrusion machines, with completion and commissioning scheduled in the second half of 2025. This investment is aligned with the Group’s strategic objective to diversify its product portfolio and broaden its customer base within the aluminium project-works segment. Furthermore, the Group remains committed to enhancing its value-added services and implementing initiatives aimed at reducing production waste, thereby supporting long-term operational efficiency and sustainable margin improvement.

Accordingly, the Group is cautiously optimistic about the outlook this year. The Board will continue to review the Group's operations and financial performance and to maintain a healthy cash flow position.

B4. Profit forecast or profit guarantee
